**It is a violation of WA RCW 18.85.230** for any Broker to use the "Realtor" brand if they are not a member. Many Real Estate Brokers are **NOT** Realtor members and are **NOT** Full Time Brokers.

**My business as a full time Real Estate Broker and Realtor is your profit and success.**

**RE/MAX** is in over 75 countries and we attract International, National, and local buyers and sellers.

**RE/MAX** has been in business for over 40 years.

The education and support team is superior and outstanding.

**RE/MAX** is a worldwide network that provides you an advantage to sell or buy a home.

**RE/MAX** is designed for the top Realtor producers in the business.

**RE/MAX** Realtors in the United States close 85 % more transactions than other national competitors.

**RE/MAX** dominates national real estate TV advertising. Despite difficult market conditions, **RE/MAX** posted gains in 2011 compared to the REAL Trends results for 2010.

**RE/MAX** agents averaged more than twice as many transaction sides as the average of all other agents in the report: 15.1 to 7. Good market or bad, it doesn't matter.

**RE/MAX** agents are consistently the most productive among national franchises in the annual REAL Trends 500, closing the most transaction sides per agent, and generating the highest sales volume per agent. In today's market you need to **hire a FULL TIME Broker** to take care of your real estate needs.
